Aim High, Work Hard, Dream BIG!

EXTRA CURRICULAR CLUBS 2024 - 25

School clubs play a vital role in fostering a well-rounded education. They offer children opportunities to explore their passions, develop new skills, and build lasting friendships. Beyond the classroom, clubs provide a safe space for children to engage in extracurricular activities and learn from peers and teachers.

Children involved in our sports clubs develop discipline, teamwork, and physical fitness. Those in academic clubs like maths, computing or science can hone their critical thinking and problem-solving skills. Creative clubs, such as choir and art can also foster self-expression, confidence and collaboration.

At Parkland, our school clubs can help children develop leadership skills as they often take on roles such as School Council or Eco Council representative. These experiences can prepare the children for future academic and professional pursuits, as well as for positive, active citizenship.

Our clubs are offered at a reduced rate for children in receipt of pupil premium funding and each term, there is a new offer in order to ensure a broad and balanced range of activities. Clubs run from the end of the school day until 4.15pm.
